Planning and executing events

PERSONAL PROJECTS

Ticket Booking site For MoonTrip (11/2022 - 04/2023)

- The "Moon Trip" website offers information about a space tourism company's mission to the Moon. It includes sections on the company, its history, spacecraft and suits, journey schedule, archives, and booking tickets. The site is user-friendly with a modern design and creator's social links.
- Project Link:<https://aniket0608.github.io/MoonWalk-aniket0608.github.io/>

PortFolio Website (11/2023 - 01/2023)

- Aniket Shahi's digital portfolio website includes sections like Header, Hero, Interests, About, Skills, and Contact, built with HTML and CSS, showcasing his skills and personal information.
- Project Link:<https://aniket0608.github.io/portfolio-aniket0608.github.io/>

Notepad (01/2023 - 01/2023)

- This C# Notepad app uses Windows Forms and offers basic file management (new file, open file, save file, and exit) and text editing functions (Cut, Copy, Paste, Delete, and Select All). It relies on StreamReader and StreamWriter for file operations and the RichTextBox control for text editing.
- Project link: <https://github.com/aniket0608/Notepad>

CERTIFICATES
